9. ***January 30, KSAZ 10 Phoenix*** – (Arizona) **Phoenix Sky Harbor Airport experiencing long delays.** Dense fog at Phoenix Sky Harbor International Airport led to the cancellation of 30 flights and the delay of an additional 80 flights during the morning of January 31. Airport officials reported that flight operations were back to normal by the afternoon and that all departing flights were back on schedule.  
Source: <http://www.fox10phoenix.com/story/27990296/2015/01/30/phoenix-sky-harbor-airport-experiencing-long-delays>
10. ***January 30, KTVI 2 St. Louis*** – (Illinois) **Fuel truck overturns on WB I-64 near Shiloh; driver injured, hospitalized.** A semi-truck struck a guardrail and overturned on Interstate 64 near Shiloh January 30 closing westbound lanes of the highway for almost 8 hours. The driver was transported to a local hospital with non-life threatening injuries.  
Source: <http://fox2now.com/2015/01/30/tanker-overturns-on-wb-i-64-near-shiloh-driver-injured-hospitalized-2/>
11. ***January 30, KOKI 23 Tulsa*** – (Oklahoma) **Broken bathrooms cause L.A. bound flight to stop in Tulsa.** An American Airlines flight travelling from New York City to Los Angeles was delayed taking off January 30 as crews pumped out deicer fumes that filled the cabin following an error that allowed the deicer to enter through the plane's air vents. The flight was later diverted to Tulsa, Oklahoma, where passengers remained onboard for more than an hour while crews repaired plane's inoperable lavatories and refueled before continuing on to its destination.

## **Food and Agriculture Sector**

12. ***February 2, WTHR 13 Indianapolis – (Indiana) Ammonia leak at Speedway Coca Cola plant prompts evacuation; shutdown.*** The Coca-Cola bottling factory in Speedway, Indiana, was evacuated and shutdown January 31 due to a leak from an 80,000-gallon tank that held ammonia used in the refrigeration processes at the plant. Systematic closure of shut-off valves helped lower the toxic levels of ammonia found inside the factory, and HAZMAT crews responded to test the air and clear the scene. Source: <http://www.wthr.com/story/27994879/ammonia-leak-at-speedway-coca-cola-plant-prompts-evacuation-shutdown>
13. ***January 30, U.S. Food and Drug Administration – (National) Aloha voluntarily recalls line of Premium Protein products due to a possible health risk.*** The U.S. Food and Drug Administration reported January 30 that New York City-based Project Healthy Living, Inc., doing business as Aloha, Inc., issued a voluntary recall for all packages of chocolate and vanilla blends of its Premium Protein powder and temporarily ceased production and distribution of the products due to possible *Staphylococcus enterotoxin* contamination. The recall was initiated after Aloha Inc. received 17 complaints from consumers who reported transient gastrointestinal symptoms consistent with staphylococcal food poisoning. Source: <http://www.fda.gov/Safety/Recalls/ucm432558.htm>
14. ***January 30, U.S. Food and Drug Administration – (Maine; Massachusetts; New Hampshire) Flowers Foods issues allergy alert and voluntary recall on Market Basket Original English Muffins sold in Massachusetts, Maine, and New Hampshire.*** The U.S. Food and Drug Administration announced January 30 that Flowers Foods recalled its Market Basket Fork Split 6 count Original English Muffins due to undeclared milk. The product was removed from Market Basket stores in Massachusetts, New Hampshire, and Maine. Source: <http://www.fda.gov/Safety/Recalls/ucm432564.htm>
15. ***January 30, U.S. Food and Drug Administration – (National) Hamchorom, Inc. issues allergy alert on undeclared milk and egg in HAITAI Tayo and HAITAI Gyeran crackers.*** The U.S. Food and Drug Administration reported January 30 that California-based Hamchorom, Inc., recalled about 1,200 boxes of HAITAI Tayo Crackers and 1,000 boxes of HAITAI Gyeran Crackers due to undeclared milk and eggs. Source: <http://www.fda.gov/Safety/Recalls/ucm432560.htm>
16. ***January 30, U.S. Food and Drug Administration – (Georgia) Georgia company recalls certain pecan products due to possible health risk.*** The Georgia Department of Agriculture alerted consumers January 30 that Stone Mountain Pecan Company issued a recall for about 540 packages of certain pecan products due to possible *Salmonella* contamination. The recall includes one lot of 8-ounce packages of “Pecanettes” that were distributed to only in the State of Georgia. Source: <http://www.fda.gov/Safety/Recalls/ucm432479.htm>

17. ***January 30, U.S. Department of Agriculture*** – (National) **Ohio firm recalls salami products due to possible temperature abuse.** The Food Safety and Inspection Service announced January 30 that Great Lakes Smoked Meats recalled about 2,863 pounds of Smokehouse Deli Karpatskaya Smoked Cooked Salami because the product may have experienced temperature abuse and may contain Clostridium perfringens. The affected product was produced in Ohio and shipped to retailers in California, New York, and Pennsylvania before the problem was discovered during a routine records review that revealed the product had reached unsafe temperature during the cooling process.  
Source: <http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2015/recall-024-2015-release>
18. ***January 30, U.S. Department of Agriculture*** – (National) **Minnesota firm recalls pork products produced without benefit of inspection.** Hawkins, Inc., recalled January 30 about 529 pounds of dehydrated pork products imported from Denmark because they were not presented for U.S. Department of Agriculture re-inspection at a Minnesota point of entry, posing possible health risks. The product was distributed to processing plants in several States but likely did not reach consumers.  
Source: <http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2015/recall-025-2015-release>
19. ***January 30, U.S. Department of Agriculture*** – (Florida) **Florida firm recalls cooked pork products due to misbranding and an undeclared allergen.** The Food Safety and Inspection Service reported January 30 that Morrison Meat Packers recalled about 70,077 pounds of cooked pork products after a spice supplier notified the company that the cumin in a spice mix used to manufacture the products may have been contaminated with undeclared peanut allergens. The recalled products were shipped to a single distributor in Florida.  
Source: <http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2015/recall-027-2015-release>
20. ***January 30, U.S. Department of Agriculture*** – (Pennsylvania; New Jersey) **Pennsylvania firm recalls pork rib products due to misbranding and undeclared allergen.** The Food Safety and Inspection Service announced January 30 that Clemens Food Group recalled approximately 42 pounds of Hatfield Smokey Chipotle Dry Rub Seasoned St. Louis Style Ribs after the company was notified by its spice supplier that the cumin in a spice mix used to formulate the products may have been contaminated with undeclared peanut. The affected product was sent in two separate 20-pound cases to the Clemens Food Group Employee Store and 1 of 7 possible individual retail locations in New Jersey and Pennsylvania.

## **Government Facilities Sector**

22. ***February 2, Associated Press*** – (Michigan) **DNR closes waterfront sites at McLain State Park.**

Michigan Department of Natural Resources officials reported that they closed 32 waterfront campsites at F.J. McLain State Park in the Upper Peninsula due to unsafe conditions and erosion along the Lake Superior shoreline and those 18 sites at the park near Hancock will remain closed permanently, while 14 others will be evaluated in the spring for safety and accessibility.

Source: <http://www.uppermichigansource.com/news/story.aspx?id=1157726>

23. ***January 31, San Luis Obispo Tribune*** – (California) **Cal Poly Fremont Hall evacuated after students report burning sensation in throats.** The Fremont Hall dormitory at California Polytechnic State University in San Luis Obispo was evacuated for nearly 3 hours, for the second time in about a week, after 2 residents complained of a burning sensation in their throats January 31. Firefighters checked the air quality and a HAZMAT team conducted room-by-room inspections and found no dangerous substances or air quality issues.

## **Information Technology Sector**

25. *February 2, WTIC 61 Hartford* – (International) **Beware of phishing scam pretending to be Better Business Bureau questionnaire.** The Better Business Bureau (BBB) warned February 2 that scammers sent bogus emails to possibly tens of thousands of businesses across the country, prompting the recipients to open a ZIP file attachment which leads to a Web site that delivers malware onto the user's computer. The BBB is working with security vendors to mitigate the threat and disable the Web site.  
Source: <http://foxct.com/2015/02/02/phishing-scam-spoofs-bbb-questionnaire-businesses-warned-not-to-click/>
26. *February 2, Help Net Security* – (International) **Raptr hacked, user info and passwords compromised.** A representative from Raptr, a gaming social network site, announced January 28 that its network may have been breached and an unidentified number of users' data, including names, email addresses, and password hashes, may have been accessed. Officials advised users to update log-in credentials associated with their Raptr account and change any related passwords.  
Source: <http://www.net-security.org/secworld.php?id=17903>
27. *February 2, Threatpost* – (International) **Another Flash zero day emerges.** Adobe released February 2 that it is working on a patch for a zero day vulnerability in Flash Player 16.0.0.296 that could cause a crash and allow an attacker to take control of the affected system. The vulnerability is reportedly being exploited via drive-by-download attacks against Windows, OS X, and Linux systems running Internet Explorer and Firefox.  
Source: <http://threatpost.com/another-flash-zero-day-emerges/110786>
28. *February 1, Securityweek* – (International) **Hackers compromise business IM service HipChat.** HipChat posted a security notice January 31 warning that hackers breached the firm's defenses and accessed names, usernames, email addresses, and encrypted passwords for less than 2 percent of its customers. HipChat triggered a password reset for all affected users as a precaution.  
Source: <http://www.securityweek.com/hackers-compromise-business-im-service-hipchat>
29. *January 30, Threatpost* – (International) **Facebook malware poses as Flash update, infects 110K users.** A trojan posing as a Flash update infected approximately 110,000 Facebook users in 2 days by posting malicious video links that lead to a malware downloader on the profiles of previously infected users. Facebook is aware of the malware that can manipulate keystrokes and mouse movement on an infected computer

and is working to block links to the scam.
